

Save our Planet

Hope you all had a wonderful Christmas and recycled as much Christmas waste as you could. I had decided to use brown paper for wrapping my presents, and let nature decorate my home as much as possible.

I used lots of brown paper.

I made some **Green** Christmas cards, and used lots of pine cones and holly.

This year the Save Our Planet group will be having Christmas Workshop Sessions so you too can have a **Green Christmas**.

See you all soon
Karin Phillips
