

How best to support me

I like people who are friendly and happy with a quiet voice. I need plenty of time to think about things before I answer.

What is important to me

My home is important to me as I feel safe there. I like my staff because they make me feel comfortable. I have two brothers, Brian and John. I don't see them much but they are important to me.

What people say about me

They say I am a gentleman, always polite very focussed in my work.
